

Safety Data Sheet: nora[®] stepfix

Date: 03.31.2014

1) Chemical Product and Company Identification**Product details:**

Manufacturer/Supplier:	nora systems, Inc. 9 Northeastern Blvd. Salem, NH 03079 USA Phone: (603) 894-1021 Fax: (603) 894-6615 www.nora.com/us
Emergency Phone:	800-424-9300 (CHEMTREC)
Trade Name and Synonyms:	nora [®] stepfix
Product Description:	Fabric and polyacrylate double sided tape for stairtread installations.

2) Hazardous Identifications

None.

3) Composition/Information on Ingredients

Double-sided adhesive tape with a scrim as carrier, coated with polyacrylate adhesives and covered with silicone paper.

4) First Aid Measures**General Information:****After inhalation:** None.**Contact with skin:** Wash hands; redness and irritant effects possible (for sensitive skin).**Contact with eyes:** None.**After swallowing:** None.**5) Fire-Fighting Measures and Fire Hazards****Suitable fire extinguishing media:** CO₂ dry powder extinguisher.**Special equipment for fire-fighters:** None.**6) Accidental Release Measures (Spills or Leaks)****Personal and environmental precautionary measures:** The adhesive tape decomposes very slowly.**Special cleaning procedure:** Adhesive residues may be removed with surgical spirit.**7) Handling and Storage****Handling:** The adhesive is flammable. No special measures to be taken.**Storage:** Store in dry rooms, free of dust and oil. Do not store together with strong oxidants.

8) Exposure Controls, Personal Protection

Exposure limit information: None.

Personal protective clothing:

General safety and hygiene measures: Usual measures (cleanliness, order).

Inhalation protection: Not necessary.

Hand protection: Not necessary.

Eye protection: Not necessary.

9) Physical and Chemical Properties

General Information:

Form: Roll of self-adhesive tape.

Color: None (transparent.)

Odour: Nearly odourless; slightly fruity.

Data important for safety: None.

Thermal decomposition: > 400 °C

10) Stability and Reactivity

Thermal decomposition: Stable, also at higher temperatures, resistant against acids and bases.

Dangerous reactions: Strong oxidants.

Dangerous substances produced by decomposition: None.

11) Toxicological Information

General information: Not toxic according to our current state of knowledge.

12) Ecological Information

General advice: The adhesive tape decomposes very slowly and is not dangerous to ground water.

13) Disposal Considerations

Adhesive residues (also in bonded condition) must be collected and disposed as industrial waste, e.g. in waste incineration plants.

14) Transportation Information

Not a dangerous good according to GGVS.

15) Regulator Information

Marking according to the regulations for dangerous goods (Chemical Law) and according to the corresponding EU directives is not necessary.

16) Other Information

None.
